**Industrial
Guide & Latch Assembly**

(Assembly Includes 1 Fork + Guides w/ Bolts
and 5/16 x 2" Hold-Up Pin)

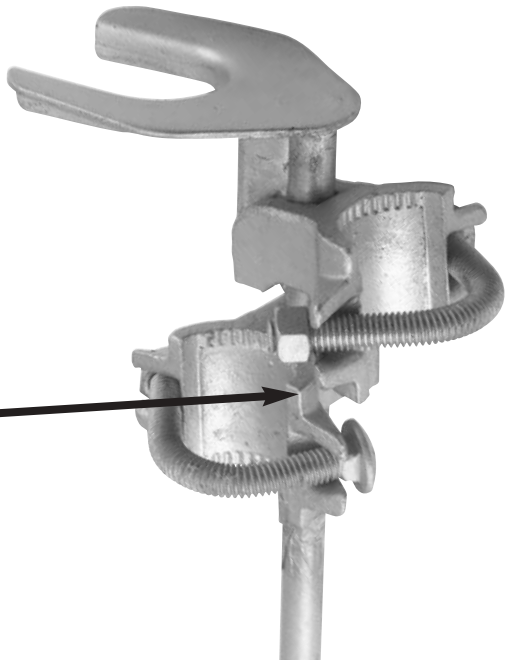

A photograph showing a close-up of the industrial guide and latch assembly. It features two vertical metal rods. A horizontal metal bracket with a handle is attached to the rods. A small lock mechanism is visible at the bottom of the assembly.

**Residential Galvanized Steel
Double Drive Assembly
Clamps-On 1-5/16" O.D. Gate**

(Assembly Includes 2 Malleable Guides
and 1-5/16" Bent Bolts)

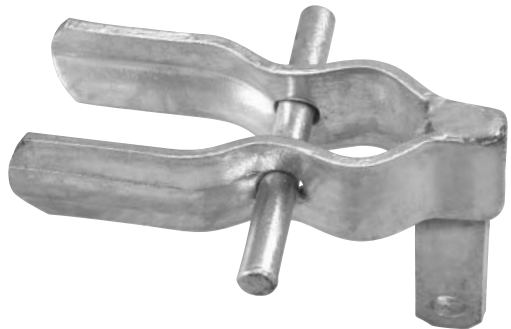

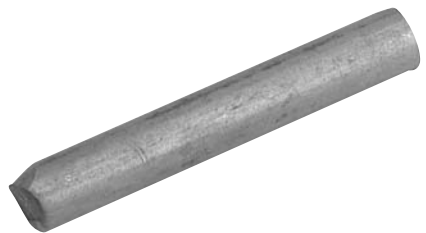

A photograph showing a close-up of the residential double drive assembly. It features a large, curved handle at the top. Below the handle is a complex metal assembly with a threaded rod and a nut. An arrow points from the text below to a specific part of the assembly.

Drop latch can be lifted to the top of the upper guides, so the bottom of the lock can be rotated around the top of the guide to allow one gate to open, while the other gate is still in place by the drop rod.
